Visual Studio Code For Mac Os

I have been on the phone with Kodak support for over 2 hours and they dont know what is wrong.. I have just taken delivery if a new iMac (the big daddy with 27' screen, i7 CPU and all the toys - all good!), however I cannot print to my Kodak ESP 5250 AIO printer.. When I installed the same software onto my Windows XP laptop, the prompt came immediately after the software install- the final step of the install actually.. 1 (32-bit/64-bit), Windows 7 (32-bit/64-bit), Windows Vista, Windows Xp • Kodak ESP 5200 Windows 10 Driver • Kodak ESP 5200 Windows 8.. The software fully installs, but at the end there is no prompt top actually connect to the printer..
